VERITAS WORLDWIDE PRESS

THE ISRAEL DOSSIER

A Comprehensive Documentary Record of U.S.-Israel Policy, Military Spending, Humanitarian Impact & International Law

Compiled from Government Records, UN Agencies, Congressional Research Service & Verified Investigative Reporting

EXPANDED EDITION — March 2026 | veritasworldwide.com

EDITORIAL NOTE

This document presents documented facts compiled from primary sources. Every figure is sourced to its original government record, UN report, or verified investigation. Where data is disputed, all credible estimates are presented. This is a reference document — not an opinion piece. Read the sources. Verify independently. Draw your own conclusions.

KEY STATISTICS AT A GLANCE

$310B+
TOTAL U.S. AID TO ISRAEL (inflation-adjusted)

SECTION 1: FOLLOW THE MONEY — THE AID PIPELINE

1.1 Total U.S. Aid to Israel: A Historical Accounting

Since 1948, the United States has provided Israel with more foreign assistance than any other country in the post-World War II era. The Congressional Research Service (CRS Report RL33222, updated May 2025) documents total U.S. aid to Israel at over **$310 billion in inflation-adjusted terms**.

The current framework is governed by a 10-year Memorandum of Understanding (MOU) signed in 2016 between the Obama administration and Israel, committing **$38 billion** in military aid from FY2019 through FY2028 — the largest bilateral military aid package in U.S. history.

Annual Breakdown (FY2019–FY2026):

Fiscal Year	FMF (Military)	Missile Defense	Supplemental	Total
FY2019	$3.3B	$500M	—	$3.8B
FY2020	$3.3B	$500M	—	$3.8B
FY2021	$3.3B	$500M	—	$3.8B
FY2022	$3.3B	$500M	$1.0B (Iron Dome)	$4.8B
FY2023	$3.3B	$500M	—	$3.8B
FY2024	$3.8B	$500M	$8.7B (April supp.)	$13.0B
FY2025	$3.8B	$500M	$5.2B (defense)	$9.5B
FY2026	$3.8B (est.)	$500M (est.)	TBD	$4.3B+

Source: CRS Report RL33222; Congressional Appropriations Acts; U.S. State Dept Notifications to Congress

1.2 Post-October 7 Supplemental Aid

Since October 7, 2023, Congress has enacted legislation providing at least **$16.3 billion** in additional military aid:

- **April 2024 Supplemental Appropriations Act:** $3.5B in Foreign Military Financing (FMF) plus $5.2B for missile defense ($4B Iron Dome/David's Sling replenishment + $1.2B Iron Beam laser system development)
- **FY2025 Defense Appropriations:** Continued $3.8B FMF baseline plus additional missile defense funding
- **January 2025 Arms Notifications:** Media reports indicate the outgoing Biden administration notified Congress of several additional munitions sales totaling approximately **$8 billion** in the final weeks of office

Source: CRS Report RL33222, May 2025; U.S. State Department Congressional Notifications

1.3 Weapons Systems Delivered

The specific weapons systems transferred to Israel since October 2023 include:

- **14,000+ MK-84 2,000-pound bombs** — Each has a lethal blast radius of 360 meters (approximately 4 football fields). These are among the largest conventional bombs in the U.S. arsenal. (Source: Wall Street Journal / NYT joint investigation)
- **Joint Direct Attack Munitions (JDAMs):** $680M package approved November 2024 — guidance kits that convert unguided bombs into precision-guided munitions
- **Small Diameter Bombs (SDBs):** Included in November 2024 package
- **AIM-120 AMRAAM air-to-air missiles:** Standard air superiority munitions
- **Hellfire missiles:** Air-to-ground precision munitions for Apache helicopters
- **155mm artillery shells:** Ground-based fire support ammunition
- **Iron Dome interceptor missiles:** $50,000–$100,000 per unit (Source: Encyclopaedia Britannica / Rafael Advanced Defense Systems)

Key Context: Israel's defense budget in 2024 was **$46.5 billion** — a 65% year-over-year increase. (Source: Stockholm International Peace Research Institute, SIPRI)

1.4 The GDP Disparity

The economic disparity between the parties in this conflict is documented by the World Bank (2024 data):

- **Israel GDP per capita:** $54,177
- **Palestine GDP per capita:** $2,592
- **Ratio:** 54:1
- **Gaza GDP contraction:** 85% during October 2023–September 2024

This makes the U.S.-Israel aid relationship one where the world's largest economy provides the largest share of its foreign military aid to one of the Middle East's wealthiest nations.

SECTION 2: HUMANITARIAN IMPACT — THE DOCUMENTED TOLL

2.1 Casualty Figures

As of March 2026, multiple independent sources document the following casualties in Gaza since October 7, 2023:

Official Figures (Gaza Ministry of Health via UN OCHA):

- **75,000+ Palestinians killed**
- **171,000+ Palestinians injured**
- **17,000+ children killed**
- **7,216+ women killed**
- **786 children under age 1 killed** (6% of documented child fatalities)
- **35,055 children** have lost one or both parents

Independent Demographic Estimate:

A November 2025 study by the **Max Planck Institute for Demographic Research** estimated total violent deaths in Gaza between **100,000 and 126,000**, of which:

- 27% were children under 15
- 24% were women

This estimate accounts for bodies not recovered from rubble and deaths not reported through the health system.

Source: OCHA Humanitarian Situation Updates #327–#355; Max Planck Institute for Demographic Research, November 2025; UNICEF

2.2 Infrastructure Destruction

According to UN satellite analysis and UNOSAT assessments:

- **Over 70% of Gaza's housing stock** damaged or destroyed
- **26 of 36 hospitals** rendered non-functional (WHO)
- **All 12 universities** in Gaza damaged or destroyed (UNESCO)
- **Over 300 schools** damaged or destroyed (UNRWA)
- **Municipal water infrastructure:** 97% non-functional (UNICEF)
- **Electrical grid:** 100% destroyed in first weeks (OCHA)

2.3 Displacement

- **1.9 million people** (approximately 85% of Gaza's population) internally displaced — the majority displaced multiple times following successive evacuation orders
- **625,000+ housing units** damaged or destroyed (OCHA)

2.4 Famine and Malnutrition

The humanitarian crisis includes documented famine conditions:

- **455 malnutrition-related deaths** documented since October 2023, including 151 children

- **94,000 children** aged 6–59 months admitted for acute malnutrition treatment in 2025 (compared to fewer than 40,000 in all of 2024)
- The Integrated Food Security Phase Classification (IPC) assessed that **the entire population of Gaza** (2.23 million people) faces crisis-level food insecurity or worse

Source: IPC Special Brief, December 2024; WHO Nutrition Surveillance Reports; UNRWA Situation Reports #201–#210

2.5 Journalists Killed

The Committee to Protect Journalists (CPJ) has documented:

- **250+ journalists and media workers killed** by Israel since October 2023 — more than any other nation has killed in CPJ's entire record-keeping history (since 1992)
- **2024:** 124 journalists killed globally — nearly 70% by Israel. The deadliest year for journalists in CPJ history
- **2025:** 129 journalists killed globally — Israel responsible for 2/3 of deaths, setting a new record
- **47 journalists** determined to have been **directly targeted and murdered** for their work in 2025 — 81% attributed to Israeli forces

Source: Committee to Protect Journalists, Annual Press Freedom Reports 2024 & 2025

SECTION 3: INTERNATIONAL LAW — THE LEGAL RECORD

3.1 ICJ Advisory Opinion (July 19, 2024)

The International Court of Justice issued its most significant advisory opinion on the Israeli-Palestinian conflict:

Key Findings:

- Israel's occupation of the Gaza Strip, West Bank, and East Jerusalem is **unlawful**
- Israel's settlement regime constitutes **annexation** in violation of international law
- Israel's legislation and measures violate the international prohibition on **racial segregation and apartheid**
- Israel must **end its occupation**, dismantle settlements, provide **full reparations**, and facilitate the **return of displaced people**

This was the **largest proceeding in ICJ history** — 52 states and 3 international organizations presented legal arguments during the February 2024 hearings.

UN General Assembly Response: On September 18, 2024, the UNGA adopted a non-binding resolution to enforce the advisory opinion: **124 countries voted in favor**, 43 abstained, and 14 (including Israel and the U.S.) voted against.

Source: ICJ Summary of Advisory Opinion, July 19, 2024 (icj-cij.org/node/204176); UNGA Resolution ES-10/24

3.2 South Africa v. Israel (Genocide Case)

On December 29, 2023, South Africa filed an application at the ICJ accusing Israel of committing genocide against Palestinians in Gaza, invoking the Convention on the Prevention and Punishment of the Crime of Genocide.

Provisional Measures (January 26, 2024): The ICJ issued provisional measures finding that there is a **plausible case of genocide** and ordered Israel to:

- Take all measures to prevent genocide
- Ensure its military does not commit genocide
- Prevent and punish incitement to genocide
- Enable humanitarian aid delivery
- Preserve evidence

The case remains active and ongoing as of March 2026.

Source: ICJ Case No. 192; ICJ Press Releases 2024/1, 2024/16

3.3 ICC Arrest Warrants

The International Criminal Court issued arrest warrants related to the conflict for senior Israeli officials, marking the first time ICC warrants have been issued for leaders of a close U.S. ally.

Source: ICC Pre-Trial Chamber I, 2024–2025

SECTION 4: DOMESTIC POLICY — AIPAC & CONGRESSIONAL INFLUENCE

4.1 AIPAC's Financial Footprint

The American Israel Public Affairs Committee (AIPAC) is the most powerful foreign policy lobby in the United States. FEC filings document its spending:

2024 Election Cycle:

- **$100 million+** spent across 389 congressional races (26 Senate, 363 House)
- **$126.9 million** total combined spending (AIPAC PAC + United Democracy Project super PAC)
- **$55.2 million** in direct donations to federal candidates
- **$45.2 million+** went to members of the 119th U.S. Congress

2025–2026 Election Cycle (to date):

- **$28 million** delivered to congressional campaigns through the first half of the cycle
- **$12.75 million** in PAC contributions in H1 2025 alone — more than 3x the next-largest PAC
- **Lobbying spending:** $1.8 million in H1 2025, a 12.5% increase over H1 2024
- **PAC contribution growth:** 88% increase year-over-year ($6.8M → $12.8M)

Strategy:

AIPAC's super PAC (United Democracy Project) focuses heavily on **Democratic congressional primaries**, spending millions to defeat progressive candidates who have criticized Israel's conduct. This spending structure allows groups to place ads **without disclosing donors** until after elections end.

Source: FEC filings; Read Sludge analysis (January 2025, March 2026); The Intercept investigation (October 2024); TrackAIPAC.com

4.2 Legislative Framework

U.S. aid to Israel is protected by several legal mechanisms:

- **The Israel Relations Normalization Act** and related legislation codify the bilateral aid relationship
- **The Leahy Law** (22 U.S.C. §2378d) prohibits U.S. military assistance to foreign security force units that commit gross violations of human rights — critics argue this law has never been enforced against Israeli units despite documented incidents
- **Arms Export Control Act** requires that U.S.-supplied weapons be used only for legitimate self-defense — multiple human rights organizations have documented potential violations

4.3 UN Voting Record

The United States has used its **UN Security Council veto** to block resolutions critical of Israel more than any other issue in the Council's history. Since 1970, the U.S. has vetoed approximately **53 UN Security Council resolutions** related to Israel and Palestine.

Source: UN Watch analysis of UNGA/UNSC voting records; Security Council Official Records

SECTION 5: DOCUMENTED INCIDENTS

The following incidents are documented through multiple independent sources including video evidence, forensic analysis, satellite imagery, and official investigations.

5.1 The Killing of Hind Rajab, Age 5

Date: January 29, 2024 | **Location:** Tel al-Hawa, Gaza City | **Evidence Tier:** VERIFIED

Five-year-old Hind Rajab and six family members were fleeing Gaza City when their civilian vehicle was fired upon by an Israeli tank. Hind's 15-year-old cousin Layan called the Palestine Red Crescent Society (PRCS): her final recorded words were that the tank was firing on them directly. All passengers except Hind were killed instantly. Hind survived alone in the car for three hours, speaking to PRCS dispatchers. Two paramedics dispatched with Israeli military coordination were also killed en route. Nine people total were killed.

Sources: PRCS audio recordings; Euro-Med Human Rights Monitor; Al Jazeera investigation; Forensic Architecture spatial analysis

5.2 Al-Ahli Arab Hospital

Date: October 17, 2023 | **Location:** Gaza City | **Evidence Tier:** VERIFIED (impact disputed)

An explosion at al-Ahli Arab Hospital killed hundreds of people sheltering in the hospital courtyard. The Gaza Ministry of Health initially reported 471 dead. Israel and the U.S. attributed the blast to a misfired Palestinian Islamic Jihad rocket. Independent investigations by multiple organizations produced conflicting conclusions about the source and casualty count.

Sources: Channel 4 News investigation; Human Rights Watch; Amnesty International; Forensic Architecture

5.3 Flour Massacre

Date: February 29, 2024 | **Location:** Rashid Street, Gaza City | **Evidence Tier:** VERIFIED

Israeli forces opened fire on thousands of Palestinian civilians gathered to receive flour from an aid convoy. At least 112 people were killed and over 750 wounded. Satellite imagery confirmed the location and scale.

Sources: OCHA; WHO; UNRWA; satellite imagery analysis; multiple video recordings

5.4 Nuseirat Refugee Camp Rescue Operation

Date: June 8, 2024 | **Location:** Nuseirat, Central Gaza | **Evidence Tier:** VERIFIED

An Israeli military operation to rescue four hostages resulted in the deaths of over 274 Palestinians, including women and children, according to Gaza health officials. The operation involved extensive aerial bombardment of a densely populated refugee camp.

Sources: Gaza Ministry of Health; AP; Reuters; satellite damage assessment

5.5 Al-Mawasi "Safe Zone" Strike

Date: July 13, 2024 | **Location:** Al-Mawasi, Khan Younis | **Evidence Tier:** VERIFIED

Israeli forces struck an area they had previously designated as a humanitarian "safe zone" where displaced families were sheltering in tents following IDF evacuation orders to move there. At least 90 people were killed and over 300 wounded.

Sources: OCHA; CNN investigation; satellite imagery; UNRWA

5.6 Targeting of Medical Infrastructure

Date: Ongoing (October 2023–Present) | **Evidence Tier:** VERIFIED (systematic pattern)

Forensic Architecture's spatial analysis documents the systematic targeting of hospitals, clinics, and ambulances across Gaza. The World Health Organization recorded over 700 attacks on healthcare facilities in the first year of the conflict.

Sources: WHO Health Attack Surveillance; Forensic Architecture; Physicians for Human Rights — Israel; MSF operational reports

SECTION 6: HISTORICAL CONTEXT — RELATED CHAPTERS IN THE RECORD

This dossier draws on six chapters from *The Record* by Veritas Worldwide Press:

Chapter	Title	Period	Sources
Ch. 6	The Talmud, the Balfour Declaration & the Origins of Zionism	1897–1948	11
Ch. 7	Mossad: The Institute	1949–Present	23
Ch. 8	JFK, Dimona & AIPAC	1963	9
Ch. 14	AIPAC & Congressional Lobbying	1963–Present	10
Ch. 15	U.S. Foreign Aid to Israel	1948–Present	10
Ch. 16	The USS Liberty Incident	1967	10

The USS Liberty Incident (June 8, 1967)

On June 8, 1967, during the Six-Day War, Israeli air and naval forces attacked the USS Liberty, an American intelligence ship operating in international waters in the eastern Mediterranean. The attack killed **34 U.S. servicemen** and wounded 171. Survivors testified that the attack was deliberate and sustained over approximately 75 minutes, involving aircraft strafing, napalm, and torpedo boats. The official investigation was classified for decades.

Source: USS Liberty Veterans Association; NSA declassified documents; Congressional testimony

The Dimona Nuclear Program

President John F. Kennedy's documented confrontation with Israel over its secret nuclear weapons program at the Dimona facility in the Negev desert represents one of the most consequential episodes in U.S.-Israel relations. Kennedy demanded inspections; Israel resisted. After Kennedy's assassination, the inspection demands were dropped.

Israel is widely believed to possess **80–400 nuclear warheads** but has never officially confirmed or denied its nuclear arsenal under its policy of "nuclear ambiguity." Israel has not signed the Nuclear Non-Proliferation Treaty (NPT).

Evidence Classification

This dossier uses the same three-tier evidence system as *The Record*:

✓ **VERIFIED** — Supported by primary source documents: court filings, congressional records, UN reports, government filings. Source is cited and publicly accessible.

◐ **CIRCUMSTANTIAL** — Individual facts are documented and verifiable. The connection drawn between them is an interpretation. Alternative explanations noted.

⚠ **DISPUTED** — Claimed by named source or sworn testimony but not independently confirmed. Included as part of the historical record. Clearly labeled.

"The truth does not need your belief — it needs your voice."
